

Connecting with friends on Photobucket

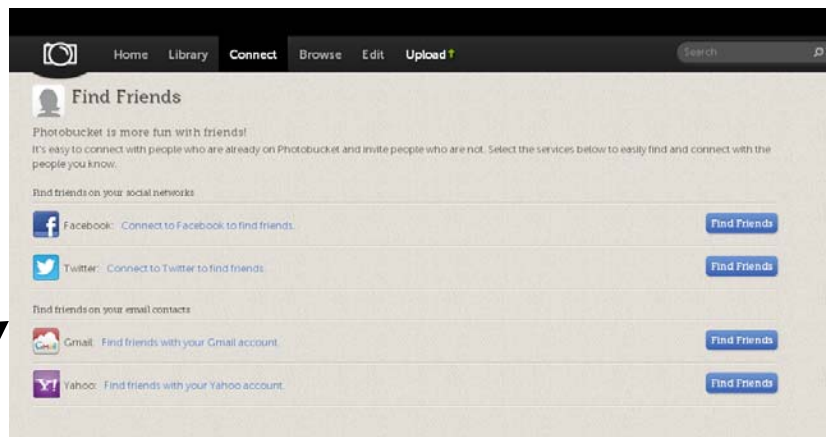

1. Click on the Connect icon on the tool bar.

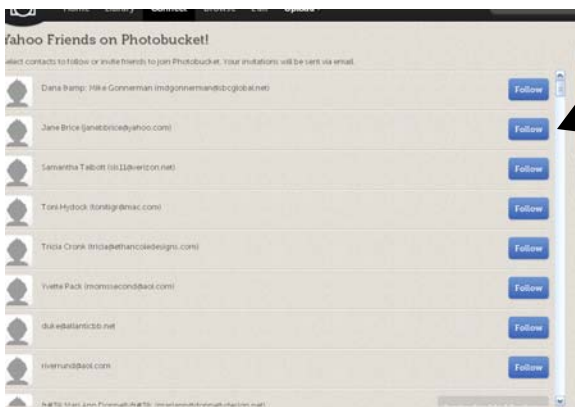

2. Then click on the “find friends” button.

3. When you press the button, a few options pop up; you can find your friends from facebook, twitter, or your email.

4. For an example, I am looking for friends from my yahoo account, so when you click on it your friends will come up on the screen in a list.

5. Lastly, click on the follow button of the person you would like to follow.
